About Us

We started our service with pump revision and injector repair in 1980 and we have been working with Deqpa brand since 2013 in our business life. Our company which has started to provide production, sales and after sales support in the field of automotive spare parts, diesel injector, fuel pump and diesel spare parts, has been acting with a more efficient and quality service mission since its foundation. Our company is continuously renewing its R & D activities.

We develop a sustainable production process and a price-performance balancing win-win concept by acting on the principle of innovation and investing in new generation technologies. Our important features that distinguish us from other companies;

- Since 1980, we have been operating in the same sector and gathering these experiences together under the name of Deqpa brand.
- We give importance to R & D and innovation
- Outside of production and sales, we provide professional support in the field of engineering and education.

With our last technological production area, we produce with high precision and technology processes in international standards.

Our works area;

- UPS, UIS spare parts
- Injector pusher pins
- Common rail calibration shims
- O-ring and rubber parts
- Repair and overhaul kits
- Lapping pastes
- Injector sealing washers
- Injector leak off connectors
- Common rail spare parts
- Over flow valves
- Vent valves
- Pressure spindles
- Spacers
- Measuring tools

INNOVATION IN EVERY STROKE.

"Behind every powerful engine lies a perfect **balance** of pressure and precision."

Every piece starts with an idea and takes shape through precision, craftsmanship, and passion.
